

Programme

Education Day on Obesity & DASO annual obesity meeting November 2nd–4th 2023

The annual education day on obesity and the DASO annual Obesity Meeting, will take place the 2nd to the 4th of November 2023. The conference will be held in Nyborg, Denmark, Østerøvej 121, 5800 Nyborg, and will bring together medical doctors, dietitians, health care professionals, and multidisciplinary researchers engaged in obesity research.

The annual educational day on the topic 'How is obesity in adolescents and adults treated in the real-world?: working on case-based examples' will include talks on treatment in primary and secondary care facilities and participant workshops.

The annual Obesity Meeting will cover topics spanning from obesity and reproductive health, lipedema, weight maintenance to obesity in childhood and adulthood and cancer risk. The meeting also gives young investigators the opportunity to present their research findings and all researchers an opportunity to strengthen and expand their research network.

DSAF's Education Day 2023, November 2nd–3rd
